Office memo

Acquisition of certain lands containing date trees in the Chamarajnagar Taluk for the purpose of State Todd Revenue.

In his petition dated 1st July 1899 to the Amildar of the Chamarajnagar Taluk, one Krishnappa asked for permission to cut down the date trees in his Survey holding no. 276 to 287 (containing in all 70 acres and 2 guntas with an assessment of Rs. 47-8-) with the object of bringing the land under coffee & other cultivation. The petition was referred to the Excise Superviser for report as to whether the land in question was required for the purposes of the Abkari Department, and if so,

how many trees, fit and unfit,
it ~~Captained~~ a meagre reply
was received stating that
the land contained thousands
of trees, that 400 trees ~~are~~
were there marked a tapped
and that no exact estimate
of the number of date trees
could be made as the land
was overgrown with thick
thorny jungle shrub & trees.
As the information was
~~not sufficient~~ insufficient
to take any further action
in the matter of acquisition,
the Excise Superintendent was
requested to furnish
a more detailed report and
he in reply stated that
it was not possible to
enumerate the trees on
each survey number as
portions of the land were
inaccessible owing to thick
growth of thorny creepers &c,
that a rough estimate showed
the number of tappable trees
to be more than 1000 and
that 310 trees ~~were~~ ~~tapped~~
marked for that year (1898-99)

The Shekdar was directed to obtain a report from the respectable residents of the place as to the value of the land &c and the manager accordingly obtained statements

(1) that a very large number of date trees fit for tapping exist on the land
(2) that there are about 3000 immature trees.
(3) that the trees are reported to yield good quantity of toddy
(4) that the land is fit for garden cultivation, inasmuch as the land was formerly actually under garden cultivation under the distinguished name of "Nainpagra"
(5) that the land contains a number of fruit & timber trees (manjoe, cranje, — yan jack & tamarind.) besides soap nut trees & other small jungle trees
(6) that a canal excavated formerly for the supply of water from "Bhandikere" and
(7) that the land is worth 100 Rs an acre.

The Amildar reported the matter in detail to the 2nd General Asst Commr and recommended that as the lands were granted so long a time back, permission may be

granted to the applicant to
cut down the trees as other-
wise a heavy compensation
has to be given. Further
enquiries were made as
to whether the land in question
was purchased or obtained
on application and whether
it was at any time brought
under cultivation by the
present occupant Sreenivasappa,
and in reply it was stated
by the Amildar in his report
of 28th July 1900, as follows:—
That the pattedar has not laid
out any large amount for the
improvement of the land since
he got possession of it; that
considering all the circumstances,
a compensation of 1,000 Rs or so
might be granted and that
if the ~~lands were resolved~~
~~needed for the Abkari~~
~~Department~~ above recommend-
ation were approved,
a separate report would be
submitted as to further
proceedings taken in
the matter. In the statement
taken ~~from the petitioner~~
on the same date the

occupant of the land
stated that of the 125 Sun
numbers in question some
were purchased from private
individuals & others were
brought at the first auction
sale held for arrears of
land revenue, and that ~~if the~~
~~land were required~~ permission
may be granted for cutting
down the trees to bring the
land under cultivation or
the land might be acquired
by payment of compensation
at 100 Rs an acre. As stated
in the mohazar referred
to above. The matter came
before the Special Asst
Commr., Chamarajapet
Sub Division, who in his
Yadi of the 16th August 1900
to the Deputy Commr., re-
commended the acquisition
of the land as suggested
by the Amildar. The entire
correspondence was then

forwarded to the Excise
Superintendent officer for
opinion as to whether the
land in question was ab-
solutely required for the
purpose of State Indus-
trial revenue. The Excise Super-
visor was then called upon
to submit a detailed report
as to the advantages of
~~acquiring the~~ or other-
wise of acquiring the
land.

In the meanwhile the
petitioner Kencharappa
submitted 2 or 3 petitions
to the Deputy Commissioner
praying for early orders
in the matter, which were
also sent in the usual
course to the Excise Super-
visor of the Chamarajapet
Range for report

While the correspondence was at this stage, the land holder ~~repres~~ prayed in his petition dated 9th August 1901 to the address of the Amildar Chamarajapatna taluk, that the land in question may be recommended to be acquired by the Amrutha Mahal Deptt on payment of compensation, as the land is situated in close proximity to the Kaval and as the land is well suited for the purpose. In this connection, the petitioner has given a statement ~~which he~~ ~~gave~~ expressing his willingness to accept compensation of Rs 30/- an acre. The amildar ~~reported~~ in his report (10. 8. 1901) to the Superintendent of the Amrutha Mahal department, stated that the applicant himself offers to take 30 Rs an acre and that Rs 5/- a compensation of Rs 5 less than what the occupant wants might

be given. The Amrutha
Mahal department wanted
more information about the
land as to the number of
date trees on it, the income
from such trees and the
present income from the
land. In the statement obtained
from the occupant with
reference to the above enquiry,
it is stated that about
1500 mature trees besides
a large number of immature
trees, exist, that tree rent
is received at the rate of 4
annas a tree and that
besides the above income,
50 maunds of sapnut &
20 Kandies of ~~tree~~ tamarind
are annually received and
that the land contains a
pond built of stones but in
a state of disrepair. No
further action seems to have been
taken by that department. In
fact, the above information
does not seem to have been
communicated to that Deptt.

On the other hand, with reference to the enquiry made in the Excise Department the Excise Inspector (formerly Supervisor) in his report dated 16th April 1902 to the Deputy Excise Commr. states

that the land is so overgrown with thick thorny creepers that a regular enumeration of date trees is quite impossible

that taking the number of trees on an acre where it was possible to count the number, there are on the whole 1750 pucka tappable trees besides 2800 immature trees

that for the year 1899-1900 537 trees & for the current year up to date (16th April 1902) 381 trees have been marked

that several shops entirely depend upon this source for supply of toddy

that the Amrutha Mahal department is very anxious

to acquire the land,

that the land is of course fit
for garden cultivation,

that, if the Mudaliar is permitted
to cut down the trees for garden
cultivation, the toddy shops
of the Tirupanur & Kasalvadi
Arabis will greatly suffer,

that, if the land is acquired
at Rs 250/- per acre as
recommended by the Tahsildar,
it will be a source of
income in more ways than
one and that the amount of
Compensation thus paid will
be realized in the shape of
tree rent only in about
15 years

that the non-acquisition
of the land will subject me
& to an annual loss
of Rs 500/- both in tree tax
and shop rent from the
shops of Tirupanur toddy-
shops which mainly
depend upon this grove
and strongly
urges the necessity of acquiring

the lands for reasons stated above. //

The Excise Commr in his letter under despatch solicits that under the circumstances reported by the Excise Range inspector the land may be acquired for the purposes of state to add revenue and states that the occupant himself is reported to be willing to part with the land at Rs 30/- an acre, that the amildar recommends Rs 25 an acre ~~which proposal is reasonable~~ and that the amildar's proposal is reasonable & may be accepted.

Note From the above correspondence it is clear that the land is a valuable one fit for garden cultivation Even taking the average amount of free rent

on not less than 400 trees
every year at the rate of
¼ anna per tree the present annual
license to the patedar is not less than
Rs 100/- besides 50 maunds
of soapnut 20 kandies of
Remaining the land also
contains a number of timber
trees. Beyond the vague statement
made by the occupant
in connection with the acquisition
of the land by the Amrita
mahal department, that he
would accept 30 Rs an acre,
no proper mutchalika
is obtained as to whether
he would accept the com-
pensation recommended
by the Amildar.

17/5/02.

Excise Commissioner's Office.

No. 650/1 Bangalore, dated 31st July 1902

From

S. C. Surveyor Esquire B.A.,
Excise Commissioner

To

A. C. Venkatadasya Esquire B.A.,
Secretary to the Government

Sir,

I am submitting herewith the Deputy Excise Commissioner's memo No. 2064, dated 26th instant, together with its original enclosures, and have the honor to solicit that under the circumstances reported by the Chamarajanagar Excise Inspector, sanction may be accorded to the acquisition of the following lands for the purposes of State Toddy Revenue:—

Taluk	Village	Survey Numbers	Area A. G	Assessment Rs. A. P.
Chamarajanagar	Basavapura	276	4-20	2-12-0
		277	4-32	3-0-0
		278	6-11	4-0-0
		279	5-26	3-8-0
		280	6-8	4-0-0
		281	6-15	4-0-0
		282	6-3	4-0-0
		283	6-1	4-0-0
		284	6-16	4-0-0
		285	5-0	3-0-0
		286	6-1	4-0-0
		287	6-29	4-0-0
			76-2	

The lands are full of date trees. The occupant Kristnappa is said to be in possession of some of them since 1883 and of others since 1888. It was wrong to have granted such lands originally for cultivation. The occupant is reported to be willing to part with them if compensation at Rs 30 per acre is paid to him. The Amildar recommends 25 Rs per acre. I am of opinion that the Amildar's recommendation is reasonable and may be accepted.

I have the honor to be,

Sir,

Your most obedient Servant

S Venkataramanayya

Asst Excise Commissioner

in Mysore

number of [illegible] [illegible]
[illegible] Tamarind Co [illegible]
[illegible] [illegible]
[illegible] [illegible]
[illegible]

in the Hobli of Honganur called Kagalvadi and Yeraganballi where parcels of date trees is very keenly felt. During the year 1899 x 1900, 57 trees were marked in these survey numbers for the supply of toddy to seven shops and in the current year 381 trees have been marked up to date for four shops. In the enclosed correspondence it will be observed that the pattadar claims compensation at 100 Rs per acre in the initial stage of the correspondence and drops down to Rs 30/- per acre and that the Amildar recommends an acreage compensation of Rs 25/- It will also be seen that the actual cost incurred by the pattadar from date of their purchase amounts to Rs nearly 800 Rs. The lands are of course fit for garden cultivation but the cost of clearing the jungle etc will cost more than 2000 Rs /- It is not advisable to grant permission to the pattadar to cut down the date trees and to turn the land to garden cultivation as the interest of toddy revenue will actually suffer as there are not very many trees

in the [illegible] many of [illegible] these [illegible] these [illegible] these

If the lands are acquired by the Excise Department and the jungle and thorny creepers weeded out and the Unwanted date plants allowed free growth I dare say the amount spent as Compensation can be realized in the shape of tree-rent only in about 15 years while on the other hand if the trees are destroyed, Government will sustain a loss of about 5000 Rs a year both in Tree Tax and Shop rent from the Shops in the Hongas and Kajalwadi Hobli which must perforce on these groves for the supply of toddy to the shops. I therefore earnestly beg that the Excise Commissioner may be moved to bring about the early acquisition of these lands for the benefit of the Excise Department.

The Commissioner of Excise,
Hyderabad.

Sir,

I have the honour to state that I am a citizen of India and a resident of Hyderabad City. I am a graduate in Arts and Law and have been practising as an Advocate in the Courts of Hyderabad for the last 10 years. I am also a member of the Bar Association.

I have been informed that the Government of Andhra Pradesh proposes to introduce prohibition in the State of Andhra Pradesh with effect from 1st October 1961. I understand that the proposed prohibition will apply to the whole of the State of Andhra Pradesh including the Telangana area.

I am strongly opposed to the introduction of prohibition in the Telangana area. I am of the opinion that prohibition will not be successful in the Telangana area and will only result in the loss of revenue to the State and the creation of a large number of illicit distillers and bootleggers.

I am also of the opinion that prohibition will not be successful in the Telangana area because the people of the area are not in favour of it. I have been informed that the majority of the people in the Telangana area are opposed to prohibition.

I am also of the opinion that prohibition will not be successful in the Telangana area because the area is not suitable for it. The area is mostly rural and the people are scattered over a large area. It will be difficult to enforce prohibition in such an area

18/8/03

Sir,

If this is connected with the Survey work with Reis Project, Survey and Sections of the same with their Field Books etc. have been submitted to the Ex: Engr. with this office no: 183 of 17/4/02

Sir,

22/8/03

I beg to Submit here with the extract of Revenue Survey plan of Basapuri village showing the Date tree grove marked in lead colour on the plan. further I beg to report that it is in my way to find out whether this land under the control of the Surveyor at by project is not to be find out, as there are no marks near the Date tree grove I think this must be consulted by Special Superintending Engineer's Office so I beg to

Sir
your humble servant
S. Ramanjulu
Subordinate
